Full Fruit Tree Setting  
Under Way Over Kentucky

Apple trees are best planted about 24 by 30 feet and peach trees about 24 by 34 feet apart. When the hole for the trees are being dug the top and sub soil should be kept separate so that the richer top soil can be placed around the roots of the trees. It is not a good practice to mix straw, manure or leaves with the dirt as the holes are being filled as these tend to clog the flow of water through the soil and may cause the tree to die because of lack of moisture. Care should be taken to pack the soil well around the roots.

Mr. and Mrs. J. N. White, of Princeton, were in Marion Tuesday.

## LIGHT ON PREHISTORIC RACE

Solentat Explains How He Expected to Determine Age of Ancient Central American Cities.

Prehistoric ruins in America will soon be accurately dated. This was the opinion expressed in an address on "The Chronological Yardstick of Ancient America," by Solentat G. Morley of the Carnegie Institute of Washington before the twentieth international congress of Americanists.

Doctor Morley's "yardstick" is the marvelous Mayan calendar by which the ages of the ancient cities of Guatemala and Yucatan will eventually be determined more accurately than the ages of the cities of ancient Egypt.

There was a documentary trading in Mayan pottery carried on with the peoples in Mexico, Peru and the southwestern United States. This pottery found among these other peoples and the Mayan date determined by comparison with similar patterns in Central America may lead to an approximately accurate date being set upon the old dwellings of the United States and ruins in Peru and Mexico, Doctor Morley thinks.

He also told of his recent trip into the great water city of Teotihuacan. The workings of a city once so central in Central America and this fertile land at a time overlooking the Caribbean sea, with a view on three last miles, represents the work which followed the breakdown of the great Mayan civilization in the fifteenth century after Christ, when these early city states fell to fighting their own race—by disease and war.

## YOUNGSTER HAD IT SIZED UP

Possibly His Frank Announcement of Situation Was Something More Than a Guess.

A young teacher of the fourth grade in one of the township schools near Indianapolis marked her pupils' papers at her home and occasionally had the assistance of some of her friends who came in to spend the evening.

The evening the grades were exceptionally low on the papers and the next day at school the young teacher told her pupils that one of her friends had helped her mark the papers and that she was really ashamed of the poor marks and she wished them to do better next time.

The next day the marks were considerably higher, so she told the children how glad she was to see the improvement and that she was glad to have her friends see how bright the pupils were.

After making this announcement, she blushed to hear one of the boys say in a loud whisper, "If he was over again last night!"—Indianapolis News.

## New River.

Abbe Mermel, a famous water diver and explorer, has discovered in the Mont Blanc region a great subterranean river, with a volume of about 50,000 gallons per minute. It runs from the base of the mountains under the name of Jura Alps. This river, which has been named "Saut-Helvet," seems not much different from which have formed little lakes and wells of pure and extremely cold water in the southeast department of France and in some eastern Swiss cantons.

Abbe Mermel declares that the waters of the "Saut-Helvet" at a depth of 75 to 100 feet, have carved out under the mountain a network of caverns and grottoes, full of stalactites and stalagmites. Some of the caverns after Mermel are 100 feet high and 150 feet broad.

## What's the Use?

The business on a mountain line had increased very rapidly but there were not enough trains or cars to accommodate the passengers. The overcrowding caused many serious accidents. The superintendent was called before the board of directors and was asked:

"Why don't you immediately put on more trains and cars?"

"Well," he replied, "what would be the use? They are selling so fast along the line that the people would fill them up and overload them just as before."

## Brick Demand for Copper.

A hardware company consumes about 300,000 pounds of copper annually. There are pins, bolts, hinges, screws, pipes, valves, radiators, wires and castings of all kinds. In a hardware store the things change all the way from a five-cent pin to a five-pound copper pipe. From a brass hat pin to a radiator. Even the radiator and the brass rail of the elevator are reconditioned.

## Pat as a Linguist.

Pat and Nora were sitting in the theater before the performance began, when the girl observed the word "Asbestos" on the fire curtain and inquired what it meant.

"What?" said Pat, "and don't be displayin' yer ignorance. Don't ye know that 'Asbestos' is the Latin word for 'Wellcome'?"—Boston Evening Transcript.

## Regular.

A minister from a country district had just moved into the nation picture colony, and a friend was asking how he liked his new pastorate.

"Very well," replied the pastor. "I am doing very well here."

"Plenty of marriages, I expect?"

"Oh, yes," said the parson. "I have my regular customers. American Legion Weekly."

I will be out of town Friday DR. F. W. NUNN

Mrs. Florene Glaze went to Princeton Tuesday to visit her sister, Mrs. Maud Rushing.

Mr. and Mrs. George Kemp of Princeton Hill section were in the city Wednesday.

## COMMISSIONER'S SALE

Crittenden Circuit Court, Kentucky  
John I. Lloyd, Plaintiff  
Against  
W. A. Martin and Earnest Tucker,  
Defendant

By virtue of a judgement and Order of Sale of the Crittenden Circuit Court, rendered at the June Term thereof 1922 in the above cause for the sum of thirty three hundred and forty dollars with interest at the rate of six percent per annum from the last day of September 1922 until paid and all costs subject to a credit of \$100.00 dated Sept. 1st, 1920, I shall proceed to offer for sale at the court house door in Marion to the highest bidder, at PUBLIC AUCTION, on Monday, the 11th day of December, 1922, at 1 o'clock P. M. or thereabouts, being Court day, upon a credit of six months the following described property, to-wit:

A certain tract or parcel of land, more or less, being in Crittenden County, Kentucky on the waters of Layman Creek and bounded as follows:

Beginning at a White Oak on the east of the creek, thence N 3 1/2 E 1/2 miles to a stone, thence N 82 1/2 W 1/2 miles to a stone in the line of A. Martin, thence with same S 1/2 W 1/4 1/2 miles to corner of said Martin, thence S 9 3/4 W 1/4 miles to a maple on the bank of the creek, two symmetrical pointers, thence at the creek with its meanders to the beginning, containing 1/2 acres more or less and is a part of the land conveyed to John I. Lloyd by S. W. Watson and wife, dated May 23, 1911, recorded in Deed Book No. 28, page 46, Crittenden County Clerk's office.

On default thereof to produce the sum of money as ordered to be paid. For the purchase price the purchaser, with approved security or otherwise, must execute bond, bearing legal interest from the day of sale until paid and having the force and effect of a judgement. Bidders will be prepared to comply with these terms.

T. F. HARRIS, Commissioner
